Key benefit that typically prompts skaters and/or parents to join Central Carolina Skating Club which provides full USFS membership

“Joining a club after group lessons is the first step to becoming a more advanced skater...Every club offers different membership packages and benefits. Joining a club is an important step in a figure skater’s life, as this becomes your training home. Once a skater is ready to take official U.S. Figure Skating tests or compete in competitions beyond Basic Skills, joining a club becomes necessary.” (US Figure Skating website)
